Commissioners: Graham Black * Greg Hertel * Barbara Marrett

The Port of Friday Harbor has completed a conceptual design for a 15,000 sq. ft. Marine Technical Center and Island Oil Spill Association headquarters on vacant land at the Jensen's Marina and Boatyard. This building is intended to house business incubation space, marine related maker space, and marine trade or professional services.

The Commission of the Port of Friday Harbor invites the community to a special Port Commission meeting at noon on December 16, 2020. The purpose of this meeting will be to gather public input on both the design of the building and the potential uses within the completed building.

The special meeting will be conducted via Zoom.
